## Information

✓ Windows ✓ Linux ✓ MAC ✓ iPhone ✓ Android

### **How to convert PDFs**

Choose all your PDF files you would like to convert, select the output file format and start the conversion. A few seconds later you can save your converted PDF files on your computer.

### **Supports many file types**

This PDF Converter can convert PDF files to various other file formats. For each target file format there are options to control the conversion.

### **Simple handling**

We make it as easy and fast as possible to convert PDF files into other files. You don't have to install or configure anything, but select your PDF files and start the conversion.

### **Supports your system**

There are no special requirements for converting PDF files into other files. The online PDF converter works with all common operating systems and browsers.

### **No installation required**

You don't need to download or install any software. The conversion of your PDFs is done on our servers in the cloud and therefore will not consume resources from your computer.

### **Security is important to us**

This online PDF Converter does not store your files on our server longer than necessary. Your files and results will be removed from our system after a short time.

✓ JPG ✓ PNG ✓ SVG ✓ WORD ✓ HTML ✓ TXT

## What others are saying

“With this tool I can quickly and easily convert PDF files into various other formats, depending on what I need. Even Word files are possible.

“If I need to extract text from a PDF quickly, then I can do it with this tool here. Select a PDF and get a text or Word file. That's really simple.
