FreeBASIC Community Hosting Services

English (auxiliary translation)

This server is free to use the FreeBASIC community of FreeBASIC programmers. This is a non-commercial, 100% free service for the open source community. The server is operated by volunteers from the non-profit website FreeBASIC-Portal.de .

Each user of the server is resposible for his / her individual subdirectory on the server. For example, user *"johndoe"* would manage the subdirectory *http: //.../johndoe/* and all its contents. The contents located in the users' subdirectories are not authorized or checked by the FreeBASIC portal.de team or server operator. The team and the server operator of FreeBASIC-Portal.com only provide free web hosting services (as to internet / web hosting service provider) to the users. The FreeBASIC-Portal.com team and the server operators are not resposible for the contents located in the users' subdirectories.

Every FreeBASIC programmer can apply for a free web hosting account. Just contact the server operator (see email address below).

Important: If you suspect a malware ?, malware ?, offensive, pornographic, violent copyright or violate copyrights, trademarks, patents etc., please contact the server operator. We have a strict zero tolerance policy against copyright infringement and other illegal contents.

E-mail address of the server operator: *mai l @ f reeba sic- portal .de*
Imprint of the server operator: FreeBASIC-Portal.de Imprint

Please remember: The subdirectories of this server address ARE NOT authored and / or managed by the web hosting service provider (FreeBASIC-Portal.de server operator). Therefore, the imprint given

German / German (primary text)

This server is used for the web delivery of files and web pages of numerous FreeBASIC programmers from the international FreeBASIC user community. It is a non-commercial, 100% free internet service for the open source developer community. The server here is operated by volunteers of the non-profit website FreeBASIC-Portal.de .

Each user of the server is responsible for his individual subdirectory on the server. For example, the user *"maxmuster"* would be the sole responsible for the subdirectory *http: //.../maxmuster/*and all content below it. The contents of the user subdirectories are neither created, maintained or checked by the FreeBASIC Portal.de team nor by the server operator. The FreeBASIC Portal.de team and the server operator provide only as a service provider (Internet Service Provider) free web hosting services via a technical platform for users. The FreeBASIC Portal.de team and the server operator are not responsible for the content below the user subdirectories and dissociate themselves from it.

Any FreeBASIC programmer can apply to receive a free web hosting account on this server to store and make available its programming-related content. If you are interested, please contact the server operator (e-mail address below).

Important: If you suspect that a user's content may be dangerous (malware?), Abusive, offensive or pornographic, violate laws or violate copyright laws, trademark rights, patents, etc. If you fail, contact the server operator immediately to have the problem investigated and remedied. We have an absolute zero tolerance policy for copyright infringement and other unlawful content.

above does not apply to those contents! If there are any legal problems, please contact the service provider (see email address above) to have the user directory removed from the server!

E-mail address of the server operator: *mai l @ f reeba sic- portal .de*
Imprint of the server operator: [FreeBASIC-Portal.de Imprint](#)

Please note that the subdirectories on this server address are NOT created, edited or checked by the web hosting service provider, the FreeBASIC Portal.de server operator (Internet Service Provider). Therefore, the o. G. Imprint NOT on this content. If there are legal problems with the contents of a user subdirectory, please contact the server operator directly (e-mail address and imprint see above) so that the contents in question can be deleted immediately by the server.
